## Determination of Rock Strength From Cores and Log: Where We Are & Ways to Go

About the Presenter:

Presented by: Dr. Abbas Khaksar

***Dr. Abbas Khaksar, is a principal geomechanics specialist with Baker RDS (Perth). He has 19 years of industry and R&D experience in rock mechanics and petrophysics with strong knowledge of reservoir geomechanics. In the past 10 years, Abbas has worked extensively in petroleum geomechanics consultancy, with GMI (2000-2005) and 2005- present with Baker RDS. He has worked on more than 100 consulting projects in many areas of geomechanics. He has about 50 publications in peer reviewed journals, SPE papers and conference presentations in areas of reservoir geomechanics and rock physics***
