

DEVELOPMENT OF SHALY SAND RESERVOIRS IN MATURE FIELDS

Formation Evaluation Society of Malaysia (FESM) would like to invite everyone to join SPWLA Topical Seminar on
6th Nov 2019 at W Hotel Kuala Lumpur.

The half-day seminar is open to all SPWLA, affiliated and non-SPWLA members. Our purpose is to facilitate knowledge sharing and to promote multi-discipline collaboration specific to formation evaluation of shaly sand reservoirs in mature fields.

Evaluating and monetizing hydrocarbon in challenging reservoirs (LRLC, Special minerals, Bioturbation and Thin Oil Rim)

Reservoir monitoring and surveillance in understanding of current fluid type, contact movement, reservoir continuity and displacement efficiencies.

Locked in potential (LIP) and Behind Casing Opportunities (BCO): Identification, evaluation and monetization

Data acquisition strategy in mature field development

Novel Workflows and Technologies for Mature Field Development

This topical conference will be conducted as an “off-the-record” forum with no publication of any material presented. We encourage the presenters and participants to share their case studies, conceptual innovations, new methodologies and latest technologies. Company logos should be limited to the title slide to indicate the affiliations of the author and co-authors. Commercialism during presentations is not permitted.

Conference attendance seating may be limited due to room capacity. Preference will be given to applicants who are willing to present at this topical conference.

Call for Abstracts is Now Open!

Abstracts on the topics above are invited, preferences will be given to the integrated field studies, those which demonstrate case study examples and lessons learned. Kindly limit your abstract to 300 words. Those selected will have 30 minutes for their presentations, including 10 minutes for discussion and questions.

Submit your abstracts by August 1st, 2019 to FESM Secretariat <fesm.secretariat@gmail.com>

SPONSORSHIP

FESM is non-profit organization where the activities are sponsored by Oil & Gas companies. If your company is interested in the sponsorship opportunity, please contact
