

## **FESAus March 2021 Talk**

### **Just what is Porosity – Tony Kennaird**

#### **Abstract:**

Log analysts, core analysts, geologists and reservoir engineers all have their own ideas about what constitutes porosity. Sometimes their values can differ by more than 15 porosity units in a given reservoir section. Why is that? Come to the talk and find out!.

***Tony Kennaird** worked for Core Laboratories for 40 years in technical, supervisory and managerial posts in the UK, Singapore, Malaysia, China, Vietnam and Australia. He has analysed clastic and carbonate formations from all over the world and has published more than 30 technical papers and notes on the subject of core analysis. Tony has frequently presented topics at SPE and SPWLA events and conducted numerous industry schools.*

**DATE:** Tuesday March 9, 2021 - 12:30 – 1:30 PM (WAST, GMT+8)  
**VENUE:** Ibis hotel (Perth), on the web (rest of the world)
